Grow into leadership

A modular, internationally oriented program that strengthens practical management and leadership skills – tailored for people working in agricultural production across borders.

Danish Farmers Abroad has brought together Danish-owned agricultural companies since 2007 – today across 44 countries. The program is delivered with **Dalum Academy of Agricultural Business**.

Why choose this program?

- Designed for cross-border, multicultural teams
- Enrol at the level that matches each person's role
- Real management challenges – not just classroom theory
