# DANISH FARMERS ABROAD

Join the Global Network of Progressive Agriculture

## Who We Are

Danish Farmers Abroad (DFA) is a professional association founded in 2007, representing Danish-owned agricultural companies operating both in Denmark and internationally.

Today, DFA brings together companies across 44 countries, creating a **strong international platform** for collaboration, knowledge-sharing, and agricultural innovation.

Our membership includes:

- Agricultural production companies
- Suppliers and service providers in the agro-industrial sector
- Individuals passionate about progressive farming

**We act as a catalyst** for sustainable growth, innovation, and professional networking in the global agricultural sector.

## What We Stand For

### Respect for Nature & Sustainable Agriculture

We promote responsible, sustainable farming that protects nature and guides every aspect of our operations.

### Commitment to Best Farming Practices

We focus on excellence in operations, productivity, and innovation.

### People-Centered Culture

We value and invest in the development of our people, teams, and leadership potential.

### Training & Leadership Networking

We invest in future farm leaders through educational partnerships and training, while our members actively exchange practical knowledge and leadership insights.

**Connect. Collaborate. Grow.**

Danish Farmers  
**ABROAD**

# EXPANDING BEYOND BORDERS

## Open to International Agricultural Companies

DFA is now **open to Danish and foreign-owned agro-industrial companies** who wish to be part of our progressive network.

We welcome:

- Mid-sized and large-scale farms
- Family farms that want to professionalize management or expand operations abroad
- Companies in pig, poultry, dairy, crop or integrated production
- Farm owners looking to build management teams or develop successors

If your company shares our values and operates with integrity and vision, you will find DFA to be an ideal platform for networking, visibility, and partnership development.

## Why Your Company Should Join

- Belong to a community of producers who share your values: professionalism, respect, and continuous improvement.
- Grow faster and more sustainably by learning from peers who face the same challenges as you.
- Attract and retain better employees through professional development and leadership strategies.
- Access practical insights and frontline feedback from professionals operating in diverse markets.

## Membership Categories & Fees

Company with 0 - 5 employees: **DKK 3.000/ year**

Company with 6 - 30 employees: **DKK 6.000/ year**

Company with >30 employees: **DKK 12.000/ year**

## What We Offer

### Peer Networking with Real Farmers

Connect with others managing similar farms across Europe. Get input and ideas from people who know your business model.

### Role-based EEG Groups

Participate in focused knowledge-sharing circles aligned with your farm's profile. Share production results, team management tools, and supplier experiences.

### Learning Events & Study Trips

Discounted participation at the large conferences that DFA organizes every year, with high-level content and networking.

Regular study tours to member farms in other countries, benchmarking performance, leadership, and technology adoption.

### Hands-on training programs

Access training programs for middle managers and connect with Danish agricultural colleges to find interns or train your future team.

### Tools You Can Apply

Learn how other members implement 5S methodology, farm governance structures and Staff evaluation systems.

## Become a Member Today

Take the next step toward building valuable partnerships and growing your presence in international agriculture.

**Join DFA – Where modern agriculture meets international collaboration.**
