Join the Global Network of Progressive Agriculture

What We Stand For

Respect for Nature & Sustainable Agriculture

We promote responsible, sustainable farming that protects nature and guides every aspect of our operations.

Commitment to Best Farming Practices

We focus on excellence in operations, productivity, and innovation.

People- Centered Culture

We value and invest in the development of our people, teams, and leadership potential.

Training & Leadership Networking

We invest in future farm leaders through educational partnerships and training, while our members actively exchange practical knowledge and leadership insights.

Who We Are

Danish Farmers Abroad (DFA) is a professional association founded in 2007, representing Danish-owned agricultural companies operating both in Denmark and internationally.

Today, DFA brings together companies across 44 countries, creating a **strong international platform** for collaboration, knowledge-sharing, and agricultural innovation.

Our membership includes:
Agricultural production companies
Suppliers and service providers in the agro-industrial sector
Individuals passionate about progressive farming

We act as a catalyst for sustainable growth, innovation, and professional networking in the global agricultural sector.

Connect. Collaborate. Grow.

Take the next step towards expanding your international farming perspective

DFA Personal Membership Is Now Open Worldwide

No matter where you live or what your role is, if you're involved in farming and want to stay connected, this is your opportunity. We welcome individual members from a different countries and backgrounds.

Ideal for:

- Independent consultants, agronomists, veterinarians
- Farm managers and technical specialists
- Young professionals starting out in agriculture
- Freelancers and entrepreneurs in the agri sector
- Former DFA company members wanting to stay connected

Why You Should Join

- You gain direct access to insights and best practices from farms and agribusinesses operating across more than 40 countries.
- You become part of a selective international network of farm managers, advisors, and agricultural professionals who share your values.
- You receive access to newsletters, webinars, and selected events.
- DFA gives you the tools and the context to grow, a place for honest exchange, reliable information, and relevant conversations

Membership Fee

Price for personal membership: **DKK 500/ year**

What You Get as a Personal Member

Peer Networking with Real Farmers

Connect with others managing similar farms across Europe. Get input and ideas from people who know your business model.

Role-based EEG Groups

Participate in focused knowledge-sharing circles aligned with your farm's profile. Share production results, team management tools, and supplier experiences.

Learning Events & Study Trips

Discounted participation at the large conferences that DFA organizes every year, with high-level content and networking.

Regular study tours to member farms in other countries, benchmarking performance, leadership, and technology adoption.

Hands-on training programs

Access training programs for middle managers and connect with Danish agricultural colleges to find interns or train your future team.

Tools You Can Apply

Learn how other members implement 5S methodology, farm governance structures and Staff evaluation systems.

Become a Member Today

Invest in your professional growth by joining a network that shares your vision for responsible and forward-looking farming.

Join DFA – The network that brings together agricultural professionals across borders.
